

About Us

We are specialists in all aspects of Power Quality – it is all we have done for over 50 years

Power Factor Control Panels

We design, build and install power factor correction panels. Supplied in standard or bespoke design ranging from 50kVAR to 400kVAR in a variety of IP ratings

Power Factor Correction Chassis & Assemblies

Our bespoke chassis and assemblies are made to order and can be fitted into existing switchgear. Our range is dimensionally and electrically compatible with Schneider, ABB & Nokia panels amongst others

On-Site Maintenance & Fault Finding

We have the largest team of dedicated power quality engineers in the UK.

- Scheduled maintenance inspections
- Emergency call-outs with 24hr response times

Our specialist engineers have experience of working with a range of equipment in complex configurations

Capacitors for Power Electronics

We offer a broad selection of capacitors for power electronics applications – AC, DC, LV, MV & HV. Our team provides both expert advice and a tailored solution to meet your individual requirements

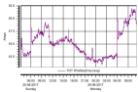

Active Harmonic Filters & HPQ

Our AHF & Hybrid Power Quality systems compensate for the harmonic currents. PCL is the UK's exclusive sales and service partner for Merus Power, a global manufacturer of AHF and associated technologies

Load & Harmonic Power Quality Surveys

We carry out load and harmonic surveys (including G5/5 assessments) for 1, 7, 14 or 30 days depending on your requirement. Our expert team will provide comprehensive analysis of the results within 5 working days

Components Distribution

We stock an extensive range of power quality components including capacitors, reactors, contactors, VSDs and reactive power relays. All available for next day delivery.

Transwave Converters

We manufacture the Transwave range of single-to-three phase converters. The preferred solution for thousands of customers experiencing grid connection difficulties

**Power
Capacitors**
Limited
Power Quality Solutions

Why use us?

Knowledgeable Staff
Available on the
telephone or in person

Bespoke Design
Made to fit your unique
application

Comprehensive Stock Holding
Capacitors, reactors, contactors,
reactive power relays and more

Rapid Response Time
On-site within 24hrs for
an emergency

**Quality Approved
Manufacturing**
ISO accreditation since 1996

Short Delivery Times
Between 4 and 12 weeks
for bespoke panels

Expert Advice
Power Quality is all we
have done since 1973
